- 07/2022– **Intern - Advanced Simulation Technologies, *AVL List GmbH***, Graz.
- 08/2022 Responsibly for data validation of finite element multibody simulations. Working on validation for synchronous permanent magnet machines as well as induction machines. Main areas:
- Validation of FE simulations with reduced sampling
 - Streamlining the validation process through python scripts
 - Software testing
- 08/2021– **Intern R&D - Department, *Nidec Corporation***, Fürstenfeld.
- 09/2021 Involved significantly in the research and development department in the preliminary study for the introduction of a new compressor platform. Main tasks: data analysis and data preparation, as well as finding the optimal platform for the predicted market. Here I was also able to gain experience in international cooperation with participating colleagues from Brazil and Slovakia. Further projects and areas of work:
- Implementation of a web scraper for market analysis of refrigeration equipment
 - Modelling of hysteresis curves for calculations of an engine simulation program
 - Excel - Simcenter SPEED interface
- 2019–2020 **Paramedic, *Österreichisches Rotes Kreuz***, Fürstenfeld.
- Civilian service as a paramedic with the Austrian Red Cross.
- As a paramedic, I was able to gain a wide range of experience in medical assistance, in emergencies and non-emergencies, but also in interpersonal dealings. As a trained emergency driver with responsibility over patients and my accompanying paramedic, I learned to make the right decisions for patients in stressful situations calmly and quickly. Even after the end of my civilian service, it is still important to me to help people in acute need, which is why I continue to volunteer.
- 08/2018 **Intern, *Estyria Naturprodukte GmbH***, Wollsdorf.
- Collecting knowledge and facts about raw materials in a knowledge database to support salespeople and key account managers.
